**Proposed Amendment of Class D Airspace; Van Nuys, CA**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to amend Class D airspace and Class E surface area airspace at Van Nuys Airport, Van Nuys, CA. After reviewing the airspace, the FAA found the need to increase the Class D airspace and Class E surface areas for the safety and management of Instrument Flight Rules (IFR) operations for arriving and departing aircraft at the airport. The geographic coordinates of the satellite airports also would be adjusted for Class D airspace and Class E surface area airspace as well as noting a name change for Burbank-Glendale-Pasadena Airport. **DATES:** Comments must be received on or before **[INSERT DATE 45 DAYS FROM DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

**Authority for this Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the

agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D and Class E airspace at Van Nuys Airport, Van Nuys, CA.

### **Comments Invited**

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2015-1138; Airspace Docket No. 15-AWP-3." The postcard will be date/time stamped and returned to the commenter.

#### **Availability and Summary of Documents Proposed for Incorporation by Reference**

This document proposes to amend FAA Order 7400.9Y, Airspace Designations and Reporting Points, dated August 6, 2014, and effective September 15, 2014. FAA Order 7400.9Y is publicly available as listed in the ADDRESSES section of this proposed rule. FAA Order 7400.9Y lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

#### **The Proposal**

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying Class D airspace and Class E surface area airspace at Van Nuys Airport, Van Nuys, CA. A review of the airspace revealed additional Class D airspace and Class E surface area airspace necessary to support instrument arrival procedures at the airport. Class D airspace would extend upward from the surface to but not including 3,000

feet within a 4.3-mile radius of Van Nuys Airport excluding that airspace within the Bob Hope Airport, Burbank, CA, formerly Burbank-Glendale-Pasadena Airport, CA, Class C airspace area, and excluding that airspace within a 1.8-mile radius of Whiteman Airport, Los Angeles, CA. Class E surface area airspace would extend upward from the surface within a 4.3-mile radius of Van Nuys Airport excluding that airspace within the Bob Hope Airport, Burbank, CA, formerly Burbank-Glendale-Pasadena Airport, CA, Class C airspace area, and excluding that airspace within a 1.8-mile radius of Whiteman Airport, Los Angeles, CA. The geographic coordinates for both airports would be adjusted to be in concert with the FAA's aeronautical data base.

Class D and Class E airspace designations are published in paragraph 5000 and 6002, respectively, of FAA Order 7400.9Y, dated August 6, 2014, and effective September 15, 2014, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

### **Regulatory Notices and Analyses**

The FAA has determined this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation; (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified this proposed rule, when promulgated, would not have a significant economic

impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### **Environmental Review**

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures” prior to any FAA final regulatory action.
